Greetings, Sir Knights:

This month's article is authored by
 ESK William. R. Frizzell,
 Grand Capt. General. *Editor.*

Brother Sir Knights,

When I was asked to write this article, I was reminded that it would appear in the July issue of the Templar magazine and I may want to consider a patriotic theme since the magazine would come out around the 4th of July. As I began to ponder what to write, I thought of the many articles I have read with patriotic themes and I began to struggle to come up with something I thought would be new or of interest. I thought about the founding fathers, the struggles and sacrifices they faced in founding our Union. I thought about the patriots that gave their lives to give us our independence and freedom from the tyranny of British rule. Our military who have and continue to serve and sacrifice to preserve the freedoms gained through our independence and constitution. Maybe I should write about the explorers, inventors, entrepreneurs, statesmen, heroes, the men and woman who throughout our history built this country into what it is today. How about focusing on the uniqueness of our democratic experiment in government. Wait, I can't leave out Freemasonry or more specifically Knights Templar. After all this article is for the Templar

magazine. Maybe something illustrating the fraternity's impact on our country's history. Or, the great Masons who have been involved in every facet of our great country's history. The more I thought about a subject the more I became overwhelmed with the possibilities. More importantly, the more time I have spent thinking about our country, Freemasonry, our history, and heritage the more I became in awe of what has been accomplished by this great country, our fraternal brothers and all of the citizens that call the United States of America home.

With all that said all I could come up with is: GOD BLESS AMERICA!!

In His service

William R. Frizzell
 Grand Captain General
